

The background of the cover is a vibrant, stylized illustration. It depicts a futuristic city with multi-tiered buildings and bridges, all rendered in a cool blue and purple color palette. In the foreground, a sleek, dark vehicle with glowing purple headlights is partially visible. A character with blonde hair, wearing a blue and white outfit, stands on a bridge, holding a long, glowing purple staff or weapon. The sky is filled with large, billowing clouds in shades of blue and white, with bright light rays breaking through from the top right corner. The overall aesthetic is sci-fi and cinematic.

1 Exemplary Playing Field

240 Cards (216 Futury Cards,
24 Destiny Cards)

12 Dice (4 Futury Dice, 4 Day Dice,
4 Night Dice)

THE STORY

There is Chaos. With the invention of the Chronomachine which enables galaxy leaders to manipulate lifeforms and artifacts from different times, the common folk are fearful and confused.

To restore the harmony which intends to only have one ruler in possession of the Chronomachine, the intergalactic federation calls for the 24 hour war.

The last remaining player wins the game!

CARD ELEMENTS

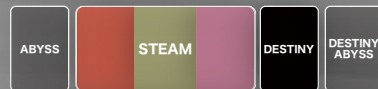

SETUP

After laying out the **FireSteam**, **GoldSteam** and **LaserSteam** next to each other, facing up, the remaining Futury Cards are sorted after their Card Number. This forms the Bazaar.

The Cards are placed in the Bazaar for all players to see. The second row consists of Landmarks, the third of Creatures and the fourth of Artifacts and Spark Cards.

The Destiny Cards are shuffled and placed face down next to the **LaserSteam** Pile.

When cards are removed from the game, they are put in the Abyss next to the **FireSteam** or the Destiny Abyss next to the Destiny Cards.

SETUP

Futory Cards in the Bazaar can be bought in the course of the game.

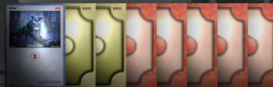

Each Player has a starting deck consisting of 5 **FireSteams**, 2 **GoldSteams** and 1 Ichor (Number 1 Creature).

These cards are shuffled and placed facedown next to the Player. This is the Future Pile. At the beginning of the game every player draws 3 cards from their Future Pile to their Hand so that other players can't see them.

The starting player is determined at random.

The game runs clockwise.

STARTING DECK

FUTURE PILE

HAND

TIME POINTS

Each player starts with the maximum of 24 Time Points (TP) represented by their Day Die and Night Die. When the Time Points reach 0 from taking enough damage, the player loses.

The last remaining player wins the game.

Time Points are taken from the Day Die first. Once a player has only 12 Time Points left, their Day Die is removed. Now that player is unable to reach above 12 Time Points for the remaining game.

DAY DIE

NIGHT DIE

FUTURE AND HISTORY

Each player draws cards from their Future Pile (face down) to their Hand and discards them to their History Pile (face up) after use.

The Card Limit of the Hand is 5 Cards.

When no cards are left in the Future Pile but more cards need to be drawn, the History Pile is shuffled and forms the new Future Pile. Subsequently, the remaining cards are drawn.

HISTORY PILE

shuffle

FUTURE PILE

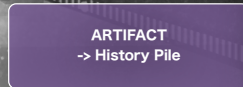

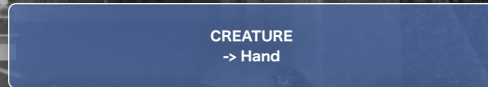

CARD TYPES

OVERVIEW

Each Card Type has its own feature. To purchase a card, a player looks at its Bazaar Cost and places the required Steam Cards from their Hand into the History Pile.

CARD LOCATION AFTER PURCHASE

CARD TYPES

STEAM CARDS

STEAM CARDS are put into the Hand after purchase.

They are the currency of the game. There are 3 different types of Steams: **FireSteam**, **GoldSteam** and **LaserSteam**.

CARD TYPES

LANDMARKS

LANDMARKS are placed face up in front of the player directly after purchase. Their effect is permanent and they cannot be discarded.

A player cannot own multiple copies of the same **Landmark**.

CARD TYPES

CREATURES

CREATURES are put into the Hand after purchase.

One Creature can enter the Creature Zone to attack any player or defend the owner.

They can attack after being in play for 1 round. After attacking, the Creature is placed in the History Pile. Another Creature can take its place immediately.

ATTACK

Creatures can attack after they have been in the Creature Zone for 1 round. They have Creature Points (CP). These resemble both their strength for attacking as well as their resistance for blocking.

A Creature may attack any opposing Player. When being attacked, one can either decide to take the damage directly or block with a Creature in the Creature Zone.

When a Player takes damage, they remove the corresponding amount of Time Points from their Die.

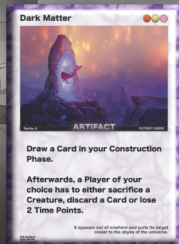

If a Creature takes damage, the new Creature Points are displayed with the Futury Die. It is defeated when its Creature Points reach 0. Remaining Damage that can't be prevented by the Creature is dealt to the defending player.

CARD TYPES

ARTIFACTS

ARTIFACTS are put into the History Pile after purchase. Once they are shuffled into the Future Pile and drawn, Artifacts can be played whenever the effect can be applied.

After being played, Artifacts return to the History Pile.

SPARK CARDS

SPARK CARDS are directly played upon purchase and sent to the Abyss.

PHASES

In their turn, each player goes through 4 Phases.

1. STEAM PHASE

The player can buy up to 1 Steam Card and take it to their Hand. Getting the free **FireSteam** counts as a purchase.

Bazaar Cost

FireSteam **GoldSteam** **LaserSteam**

AllSteam

Any Steam can be used for purchase.

Phase 1

PHASES

2. CONSTRUCTION PHASE

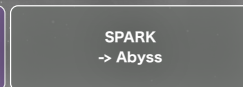

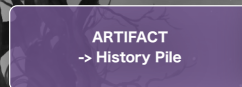

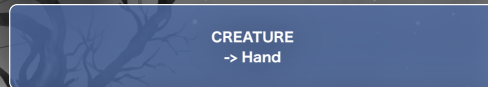

The player may purchase any amount of Non-Steam Cards from the Bazaar and use various effects.

To purchase a Card, the required Steams are placed in the History Pile.

The location after purchase depends on the Card Type.

If the last card from a pile is purchased, each player loses 1 Time Point.

CARD LOCATION AFTER PURCHASE

Phase 2

PHASES

3. CREATURE PHASE

A Creature may enter the Creature Zone from the Hand.

If a Creature attacks or has taken enough damage (0 CP left), it is placed in the History Pile. The player can immediately put another Creature into the Creature Zone once it is empty.

attack

Phase 3

PHASES

4. ENDPHASE

The player draws 2 cards.

If the Card Limit of the Hand is exceeded, the player chooses the cards to discard.

Subsequently the next player starts their turn.

Skip Your Turn

A player may choose to skip their first 3 phases entirely and go directly to the End Phase.

This way, they draw 3 cards instead of 2.

HISTORY PILE

draw

FUTURE PILE

Phase 4

DESTINY CARDS

If a player has no cards in their Future Pile at the beginning of their turn, they reveal the top Destiny Card and execute its effect. If a Destiny Card applies to all players, the effect occurs clockwise, starting with the player who revealed the Destiny Card.

After Destiny has occurred, the card is sent to the Destiny Abyss, face up.
